

Memorandum

To: Nexen Group Incorporated Customers,
Distributors and Suppliers

Date: April 6, 2020

From: Nexen Group Incorporated

Re: OPEN FOR BUSINESS

Nexen Group, Inc., is classified as an essential business. Our Customer Support and Application Engineering teams are available and ready to assist from our world headquarters in Vadnais Heights, Minnesota.

Our Wisconsin manufacturing facility continues to operate as usual to ensure that we continue to provide the world class Motion Control and Power Transmission products that you and your customers have come to expect.

Additionally, to help get product to where it is needed in the most expeditious manner, Nexen will be suspending indefinitely our fee for drop shipments.

Nexen is working to satisfy all Minnesota/Wisconsin orders with respect to "Social Distancing Requirements" designed to protect the health of employees and others on the business premises.

We appreciate your business and hope you and your families are safe during this time.
